

*Office Memorandum* • UNITED STATES GOVERNMENT

DATE: 14 November 1960

TO : Chief, DMD

FROM : Chief, TISD

SUBJECT: 4X Printer

[REDACTED], will be in this area Wednesday afternoon to work on the 4X printer.

The 4X printer, after it is completed, will probably be a 3.5X printer since it is desirable to print the titling as well as the image format of the picture. I don't think there is any reason why a 3.5X won't be just as good for us as the 4X printer. There is nothing magic about the 4X printer except that it's a good round number.
